***Gateway Energy Services Lights the Night
with the Leukemia & Lymphoma Society***

NYACK, N.Y. – Gateway Energy Services Corporation led the charge against blood cancer Oct. 4 lighting the night with red balloons in support of the Leukemia & Lymphoma Society (LLS) and its life-saving research. As the Presenting Sponsor of the Nyack walk, more than 40 family members, friends and employees of Gateway Energy gathered in Nyack Memorial Park to support patients, celebrate survivors and honor those who have lost the battle with cancer.

Gateway Energy, a supplier of natural gas and electricity based in Rockland County, has been a dedicated sponsor of Light The Night for five years, raising thousands of dollars for the LLS. This year, Gateway Energy's team of 21 employees raised more than \$6,500. The team used all of the traditional methods to raise money and also sponsored a company softball game to add a few hundred extra dollars to the total.

More than 1,000 people total came out in support of the event and enjoyed such activities as face painting and a bounce house for kids, live music and free food. When the walk began at 7 p.m. Gateway Energy's team walked behind the banner displaying the tag line "Your Energy. Your Choice." That night the company tag line had a new meaning: The members of the Gateway Energy team chose to use their energy to walk and support a great cause.

"It was an awesome and inspiring night," said Carol Wagner, Gateway Energy's Vice President of Marketing and a walker in the event. "We are proud to support something that has such a positive impact on the community. The team looks forward to coming together each year to raise money to fund this important work."

About Gateway Energy Services

Gateway Energy Services Corporation, based in Rockland County, N.Y., is one of the largest independent retail energy suppliers in North America, providing natural gas and electricity to residential and business customers in 26 markets across six states, the District of Columbia and Ontario, Canada. Founded in 1997, Gateway Energy provides competitive energy products to consumers giving them more control over their energy costs. (www.gesc.com)
