## **Gateway Energy Continues to Hire Despite Economic Downturn**

MONTEBELLO, NY – Gateway Energy Services is battling unemployment in Pennsylvania by continuing to hire for its 56-seat call center in Forty Fort. The company plans to hire 25 more residential telesales representatives and reach its goal by November 1. Its multi-faceted recruiting agenda focuses on flexible part-time positions and includes hosting onsite recruiting events, attending career fairs and canvassing local colleges for qualified people.

On Saturday, September 17 (11 a.m. - 4 p.m.) and again on Monday, September 19 (11 a.m. - 6 p.m.), Gateway is hosting an onsite recruiting event for walk-in applicants at its satellite office at 190 Welles St., Forty Fort. Qualified candidates who have call center or sales experience or candidates who are looking to begin a career in sales are encouraged to bring their résumés so that they can interview immediately with a Gateway representative.

On Tuesday, September 20, Gateway will have a booth at The Times Leader Career Fair at the Kingston Armory from 10 a.m. to 5 p.m. The event is sponsored by The Times Leader, 1<sup>st</sup> Battalion 109<sup>th</sup> Field Artillery and Pennsylvania Career Link, and will work in conjunction with Monster.com.

On Tuesday, October 11, Gateway representatives will be at Luzerne County Community College (in front of the bookstore) from noon to 2 p.m. talking to students about careers in sales, taking résumés and setting up interviews. Also on October 11 at 4 p.m., Gateway will host an exclusive presentation of our services and the jobs being offered, as well as conduct on-the-spot interviews with job applicants at Kings College.

Look for Gateway at the Great Northeast 2011 Job Fair in Scranton on October 19 and also at Penn State University's Wilkes-Barre campus.

Gateway, since opening its satellite office in January 2010, has created more than 50 jobs for Wyoming Valley residents, and fields a team of three sales representatives in the neighboring Allentown area. The energy marketer offers electricity supply service to customers in the PPL and PECO service areas through competitive one- and two-year fixed-rate plans.

### **About Gateway Energy Services**

Gateway Energy Services, a subsidiary of Direct Energy, provides natural gas and electricity supply service to thousands of residential and business customers in more than 35 deregulated energy markets across eight states, the District of Columbia and Ontario, Canada. Founded in 1997, Gateway Energy provides competitive energy products to consumers giving them more control over their energy costs.
